NOTES TO RESULTS

31 March 2018

1. BASIS OF PREPARATION

This financial information has been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). It has been prepared under the historical cost convention except for (i) investment properties, equity investments at fair value through profit or loss and the derivative components of convertible bonds which have been measured at fair value; and (ii) non-current assets and assets of a disposal group classified as held for sale which are stated at the lower of their carrying amounts and fair values less costs to sell. This financial information is presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial information includes the financial information of the Company and its subsidiaries for the year ended 31 March 2018. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial information of the subsidiaries is prepared for the same reporting period as the Company. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

Profit or loss and each component of other comprehensive income are attributed to the shareholders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised HKFRSs for the first time for the current year's financial information:

Amendments to HKAS 7	<i>Disclosure Initiative</i>
Amendments to HKAS 12	<i>Recognition of Deferred Tax Assets for Unrealised Losses</i>
Amendments to HKFRS 12 included in <i>Annual Improvements to HKFRSs 2014-2016 Cycle</i>	<i>Disclosure of Interests in Other Entities: Clarification of the Scope of HKFRS 12</i>

Other than as explained below regarding the impact of HKAS 7 and HKAS 12, the adoption of the above revised standards has had no significant financial effect on this financial information.

- (a) Amendments to HKAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.
- (b) Amendments to HKAS 12 clarify that an entity, when assessing whether taxable profits will be available against which it can utilise a deductible temporary difference, needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group's operating businesses are structured and managed separately according to the nature of their operations and the products and services they provide. Each of the Group's operating segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other operating segments.

The chief operating decision maker of the Group has been identified as the executive directors of the Company and certain senior management (collectively referred to as the "CODM"). For the purpose of performance assessment and resource allocation by the CODM, the Group's business activities are categorised under the following three reportable operating segments:

- Construction work – provision of services in areas of civil engineering, electrical and mechanical engineering, foundation and building construction
- Property development and assets leasing – development and sale of properties and leasing of assets
- Professional services – provision of security and facility management solutions

Segment revenue and results

Segment results represent the gross profit generated from each segment, net of selling expenses and administrative expenses directly attributable to each segment without allocation of corporate expenses, interest income, fair value gain of the derivative components of convertible bonds and finance costs. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

9. EARNINGS PER SHARE ATTRIBUTABLE TO SHAREHOLDERS OF THE COMPANY

The calculation of the basic earnings per share amount is based on the profit for the year attributable to shareholders of the Company and the weighted average number of ordinary shares less treasury shares held by the Company in issue during the year.

The calculation of the diluted earnings per share amount for the year ended 31 March 2018 is based on the profit for the year attributable to shareholders of the Company and the weighted average number of ordinary shares used in the calculation is the total of (i) the weighted average number of ordinary shares used in the basic earnings per share calculation; and (ii) the weighted average number of ordinary shares assumed to have been awarded at no consideration on the deemed exercise of all rights of shares held under the Company's share award scheme. The share options of the Company outstanding during the year has no diluting effect on the basic earnings per share amounts presented.

In respect of the diluted earnings per share amount for the year ended 31 March 2017, no adjustment has been made to the basic earnings per share amount presented as the impact of the convertible bonds outstanding during the prior year had an anti-dilutive effect on the basic earnings per share amount presented.

The calculation of the basic and diluted earnings per share amounts is based on the following data:

Based on the existing legal documents after having performed management’s internal critical assessment of the aforesaid cases and seeking advice from independent legal advisor, the directors of the Company are of the opinion that the Group has a reasonable ground of defence on the merits and the cases would be successfully defended, therefore, no material adverse financial impact to the Group is expected.

BUSINESS REVIEW

The Group has continued to perform stably during the Year. It recorded a total revenue of HK\$8.23 billion (2017: HK\$8.81 billion) and net profit attributable to Shareholders of HK\$150 million (2017: HK\$206 million) for the Year. The Company's net asset value per share amounted to HK\$1.35 as at 31 March 2018 (2017: HK\$1.39).

Construction

The construction segment, which is mainly operated under the renowned "Chun Wo" brand, represents the principal business of the Group. Consistent with this stature, the construction segment has continued to be the chief revenue contributor of the Group, generating a revenue of HK\$7.68 billion (2017: HK\$8.31 billion), with segmental profit totalling HK\$116.3 million (2017: HK\$149.2 million) for the Year. As at 31 March 2018, the total value of contracts held by the Group amounted to HK\$28.85 billion, of which the projects of HK\$12.24 billion in contracts were ongoing.

Competition remained intense in the construction segment, which consequently placed pressure on profit margins. The slow funding approval process for public works projects resulting from political concerns continued to bring challenges. However, there is a sign of gentle decline in labour costs by the fact that many existing large-scale infrastructure projects are nearing completion. Moreover, there is partial relief in the form of public and private housing, with the Hong Kong Government continuing to release land to satisfy strong demand, thereby creating more building opportunity for the construction segment.

As at the Year, the Group has been awarded 12 new projects. Among the significant projects won include construction of Hong Kong International Airport – Terminal 2 Foundation and Structure Works, Public Rental Housing Redevelopment at Pak Tin Estate in Shek Kip Mei, and Tseung Kwan O – Lam Tin Tunnel – Tseung Kwan O Interchange and Associated Works.

The Group has 27 projects that were ongoing as at the Year, most of which involve a high degree of technical expertise and world-class construction capabilities. Among the significant projects that are under development include the Central-Wan Chai Bypass: Tunnel (North Point Section) and the Island Eastern Corridor Link, and Liantang/Heung Yuen Wai Boundary Control Point, Site Formation and Infrastructure Works. The Group has also completed 11 projects during the Year, including Handling of Surplus Public Fill, Happy Valley Underground Stormwater Storage Scheme, and Trackwork and Overhead Line System of Guangzhou-Shenzhen-Hong Kong Express Rail Link (Hong Kong Section).

The Group has taken to seize opportunities from the “Belt and Road” initiative, it has secured a contract with Manila Water Company, through a jointly formed company with two third parties which will be involved in the designing and constructing of water conveying facilities in the Philippines.

The Group also acquired Ng Kam Kee Construction Company Limited in October 2017. Besides gaining access to the Macau market, the exercise has enabled the Group to establish an important stepping stone for tapping the Guangdong-Hong Kong-Macao Bay Area (the “Greater Bay Area”).

Property Development and Assets Leasing

The property development and assets leasing segment contributed a profit of HK\$197.7 million (2017: HK\$123.4 million) for the Year.

During the Year, the Hong Kong property market has remained bullish, driven by aggressive purchasing from the general public. As a consequence, government auctions saw fierce bidding that resulted in record-breaking transactions for land parcels. In the face of such a highly charged atmosphere, the Group has sought to prudently refine its property portfolio. Correspondingly, it has elected to dispose of the Group’s interest in the “T PLUS” residential property located at No. 2 Tsing Min Path, Tuen Mun, which is expected to generate favourable returns. Furthermore, recognising the importance of establishing strategic ties to minimise risk, the Group will co-develop with a strategic partner the premium residential property located at Waterloo Road, Ho Man Tin. Separately, the Group expected to commence construction of a residential project at Tung Chung Road, Lantau Island, by the mid of 2019.

In respect of the Group’s properties and land in Shijiazhuang City, the People’s Republic of China (the “PRC”), the Group is continuing negotiation with a third party on their possible disposal.

Professional Services

City Services Group Limited (“City Services”) has been operating the Group’s security and facility management business for years. The business segment continued to deliver encouraging results, generating revenue of HK\$548.0 million (2017: HK\$484.9 million), and segmental profit of HK\$26.7 million (2017: HK\$15.8 million) for the Year.

Indicative of the high level of professionalism in which the business conducts its services, the segment has been able to renew a number of contracts with key clients. Just as importantly, City Services has been awarded several new contracts, including a property management contract for Elegance House in North Point, security contracts with Hong Kong Baptist University and HGC GlobalCentre Limited, a security and car park management contract with the Hospital Authority – Kowloon East Cluster, and a residential security contract for Ocean Shores in Tiu Keng Leng.

Other Business

The Group is committed to diversifying its income streams, and this is clearly illustrated by the variety of new businesses that it is engaged in. Though some were in their early stages of development, all possess favourable growth potential, are able to provide the Group with invaluable experiences. As at the Year, this dynamic cluster includes the provision of upscale safe deposit box services, operation of an online building materials procurement platform, and the provision of construction financing services.

Upon the winning of contracts to manage four more tunnels subsequent to the financial year end, the Group will be managing a total of five tunnels in Hong Kong, namely the Cross-Harbour Tunnel, the Shing Mun Tunnels, the Tseung Kwan O Tunnel, the Kai Tak Tunnel and the Lion Rock Tunnel, which is approximately 40% shares in Hong Kong tunnel management market.

During the Year, the Group has entered into a Memorandum of Understanding (the “MOU”) with Guangzhou Nansha Development Zone and Guangzhou Industrial Investment Fund Management Co., Ltd. (“Guangzhou Fund”) with the objective of providing education, medical and elderly care services and housing in the Nansha New Area, which is located in the heart of the Greater Bay Area. Given that the Greater Bay Area along the “Belt and Road” route is set to become an integrated financial and technology hub of southern China, the MOU holds tremendous significance for the Group’s future development.

OUTLOOK AND PROSPECTS

Construction

The Group remains cautiously optimistic about the construction sector in Hong Kong in the coming years. Such optimism is based on ongoing and strong demand for both public and private housing, which, in respect of the former, will encourage the Hong Kong Government to continue augmenting land supply as well as accelerating development of land, public housing and public rental housing, all of which will bode well for the Group. As for private housing, resilient demand will embolden developers to introduce more projects, thereby creating even greater opportunities.

The Group will continue to invest in reputable construction related companies in Asia, export its project management know-how and transferable skills to facilitate its involvement in large-scale projects in the region and examine acquisition and partnership opportunities to increase its participation and major infrastructure developments. The Group’s holistic approach will become a part of regional force.

Property Development and Assets Leasing

The bullishness of Hong Kong property price invariably raises concerns about the market entering a bubble, the Group will choose to err on the side of caution looking for property development opportunities that result in long term income. It will also seek to establish joint ventures so as to allow the Group to optimally use its working capital. Correspondingly, the Group has established a joint venture with a third party subsequent to the Year, which acquired a property located on Cameron Road, Tsim Sha Tsui. The property will be redeveloped into either a Ginza type commercial building or a serviced apartment building, hence the Group will be able to derive diverse revenues from the investment.

Professional Services

To encourage the ongoing development of City Services, the Group has continued to consider with proceedings to spin it off and separately list on the Stock Exchange.

Other Business

The Group's various new business interests have continued to follow their own distinct phases of development. While the Group will seek to expedite such development so as to increase their contributions, it will also capitalise on the expertise and experience gained from these businesses to seize opportunities in Hong Kong and across the region as they arise.

With the arrival of SFund International Investment Fund Management Limited ("SFund International") as a strategic Shareholder, the Group will leverage the two parties' strengths to explore opportunities that emerge from the Greater Bay Area, particularly in the aspects of education, medical and elderly care services and housing. SFund International, together with the efforts from Guangzhou Fund, the parent company of it, will be partnering with the Group in establishing an international education base in Nansha New Area, centrally located in the Greater Bay Area.

Overview

In the year ahead, the Group will maintain its mission to seize long-term property development opportunities, whether directly or through joint ventures. It will also continue broadening its income streams via new business developments.

In the PRC, the Group will be working closely with Guangzhou Nansha Development Zone and Guangzhou Fund in establishing an international education base in the Nansha New Area that is the initial objective of the alliance. From this important first step, the Group will pursue the parties' directive of also providing education, medical and elderly care services and housing principally in the Greater Bay Area.

Maintaining a sustainable and healthy financial position has also been one of the Group's key corporate objectives. With syndicated loan facilities of HK\$2.05 billion concluded during the Year, the Group was able to enhance its financial flexibility and funding capability, as well as enable the Group to accelerate its business expansion.

Alongside efforts to gain a foothold in the Greater Bay Area, the Group will exploit its half-century of experience, solid reputation, experienced management team and dedicated staff to strengthen its regional presence, particularly in countries along the "Belt and Road" route. In this way, the Group will evolve into a leading multinational enterprise that is truly an ally to companies across Asia.
