DECADES OF INFRASTRUCTURE AND PROPERTY PHOTOS TO SHOW
CONTRIBUTION OF THE CONSTRUCTION INDUSTRY TO HONG KONG’S DEVELOPMENT

(Hong Kong, 4 October 2018) — **Asia Allied Infrastructure Holdings Limited (“AAI” or the “Group”)** (stock code: 00711) and its wholly-owned subsidiary **Chun Wo Development Holdings Limited (“Chun Wo”)** will present a photo exhibition tour titled “Our Story, Your Story” to commemorate the Group’s 50th Anniversary. The exhibition will be staged at various locations in Hong Kong between October and November 2018, in the hope of enhancing public appreciation of the construction industry and how Chun Wo’s construction projects are connected with lives in Hong Kong.

The exhibition will feature more than 50 photos from five significant periods, showing visitors how Hong Kong has changed from being an industrial city back in the 1970s to the metropolis it is today after five decades. The Group believes, by retracing Chun Wo’s development history, the public will come to understand and appreciate the contribution the construction industry has made as they stroll down memory lane to revisit the old Hong Kong.

The photo exhibition tour has three stops. The first stop will be at the Hong Kong PolyU Innovation Tower – Innovation Gallery between 5 and 10 October 2018. Then it will move to the Tuen Mun Town Hall – Exhibition Gallery between 25 and 30 October 2018, and last to the Kwun Tong Promenade – V Gallery between 6 and 11 November 2018.

Mr. Dominic Pang, Chairman of AAI, said, “Over the past five decades, the Group has grown from a local construction company into a diversified business enterprise with an ever-extending reach and growing influence across Asia. We would like to share our happiness and tell the public our story, while reminding them of theirs, through this photo exhibition.”

Redevelopment of Peak Tower

The redevelopment of the iconic Peak Tower in 1994 (a major retail destination) was one of the Group's most challenging projects due to the location's humidity, sloped environment, and low visibility due to height.

Asia Allied Infrastructure Holdings Limited (stock code: 00711.HK)

Asia Allied Infrastructure Holdings Limited ("Asia Allied Infrastructure") is listed on the Main Board of the Hong Kong Stock Exchange under stock code 00711. It is engaged in various businesses including construction engineering and management, property development and assets leasing, security services and property management. With Hong Kong as its business development base, Asia Allied Infrastructure is also exploring development opportunities with Asia as the main focus, as well as in overseas markets. Its subsidiary "Chun Wo" is a renowned construction contractor and property developer in Hong Kong, which enables Asia Allied Infrastructure to capitalise on that company's solid construction experience and professional capabilities to seize the opportunities for infrastructure development in countries along the area of the "Belt and Road" initiative, and, ultimately, to increase overall profitability and create higher investment value.

Chun Wo Development Holdings Limited

Chun Wo Development Holdings Limited ("Chun Wo") was founded in 1968 and is a key subsidiary of Asia Allied Infrastructure Holdings Limited (stock code: 00711.HK). The Company is principally engaged in the core construction and property development businesses with the professional capability to undertake large integrated construction projects. Recent examples of large infrastructure projects in Hong Kong within which the Company has undertaken works include the Central-Wan Chai Bypass, Liantang/Heung Yuen Wai Boundary Infrastructure, the Hong Kong-Zhuhai-Macao Bridge Passenger Clearance Building, the Guangzhou-Shenzhen-Hong Kong Express Rail Link (Hong Kong Section) and the MTR Shatin to Central Link. With deep roots in Hong Kong for nearly 50 years, Chun Wo has accumulated extensive experience and a strong position in the construction sector enabling it to expand business to countries along the "Belt & Road" route in Southeast Asia. Examples of such expansion are the acquisition of a construction and engineering consultancy in Singapore and the waterway bridge design and construction projects undertaken in the Philippines during recent years.
